Health Care Plans

Health care plans specify the arrangements necessary to help children with health conditions attend school. Please tell staff when you enrol your child at Magill School whether individual health support is needed and advise them whenever your child's health care needs change.

To ensure appropriate arrangements are put in place to support your child you will be asked to provide a health care plan written by the treating health professional. The plan should document your child's emergency and routine health and personal care needs and should be checked and updated every year.

Student health support forms need to be completed by a health professional and returned to school.
