

EALD

(English as an Additional Language or Dialect)

EALD Specialist teachers support children who are from a non-English speaking background focusing on language learning. They create a supportive and caring environment to encourage the development of English by working either in class or with small groups of children with high language needs. The students in these groups are selected by their classroom teacher in consultation with the EALD teacher. Student oral and written assessments assist the team in making selections.

EALD teachers support EALD students in learning

- to speak
- to listen and understand
- to read and write in Standard Australian English - using English in different subject areas and in a variety of experiences
